Penyakit Keracunan Makanan

Satu kejadian wabak keracunan makanan yang melibatkan 18 orang pesakit telah dilaporkan oleh Pejabat kesihatan Daerah Ledang. Kejadian ini bermula selepas kesemua pesakit makan di rumah persendirian yang dimasak secara gotong-royong. Siasatan mendapati bahawa makanan dimasak oleh 4 orang pengendali makanan yang tidak terlatih dan tidak pernah menerima suntikan typhoid. Selain itu, pasukan siasatan juga mendapati faktor yang menyumbang kepada kejadian keracunan makanan kerana kupang sambal yang dimasak tidak sempurna yang menyebabkan makanan tersebut secara *undercook*.

Notifikasi awal diterima daripada Jabatan Kecemasan H.Tangkak seramai 8 orang yang mengalami simptom keracunan makanan (muntah, cirit birit, pening , loya dan sakit perut) . Kes ini melibatkan 65 orang tetamu yang hadir ke majlis kenduri arwah di Kg Termil Sagil. Hasil siasatan terdapat 18 orang pesakit (PCD=9, ACD =9). Manakala jumlah kontrol yang dikesan adalah 34 orang. Onset kepada kes indeks ialah pada 10/1/2015. Berdasarkan kepada gejala klinikal keracunan yang lebih mirip kepada saluran gastrousus bawah berbanding saluran gastrousus atas (cirit-birit = 88.89% berbanding muntah = 44.44%), maka patogen yang disyaki menjurus kepada *Salmonella* spp.

7 sampel swab rektal, 6 swab persekitaran dan 4 baki makanan semasa kenduri berjaya diperolehi dan dihantar ke Makmal Kesihatan Awam Johor Bahru untuk analisa makmal. Tiada kes yang dimasukkan ke hospital dan kesemua mangsa telah pun sembuh. Arahan kerja-kerja pembersihan serta promosi pendidikan kesihatan juga telah diberikan kepada pengendali makanan.

Note: Please verify with the Epidemiology (CDC) Unit, Public Health Division, Johor State Health Department before quoting above figures and outbreak summary.
